New Delhi, India

Profile

I possess a good knowledge of the Software Development Life Cycle (SDLC) and a deep understanding of software testing principles. My skill set includes proficiency in various test automation frameworks, tools, and scripting languages such as **Selenium WebDriver, TestNG, Cucumber, and Java**. I have a proven track record of creating and maintaining automation scripts and frameworks. Additionally, I am well-versed in utilizing version control systems like **Git** and continuous integration tools such as **Jenkins**.

One of my standout strengths lies in my expertise as a (SDET) with a specialization in Java. I have successfully applied this expertise in the challenging realm of **financial testing, particularly in areas such as Fund Settlement, Trade Operations, Middle Office Operations, and Cash and Equity Settlement.**

Experience
